PROFESSIONAL SUMMARY

Final-year Software Engineering student (CGPA 3.96/4.00) with hands-on experience designing, building, and deploying full-stack systems from concept to launch. Skilled in AI integration, real-time web applications, and leading technical projects under pressure. A national STEM finalist and chosen department representative — pairing academic excellence with entrepreneurial drive and clear technical communication.

EDUCATION

Bachelor of Software Engineering

Oct 2022 – Jul 2026

Al Buraimi University College · Al Buraimi, Oman

CGPA 3.96 / 4.00 — First-Class Distinction · College Honour Roll (both semesters) · Consistent Dean's List

- Senior Capstone: **StudyNest** — AI-powered collaborative study platform, graded Distinction.

TECHNICAL SKILLS

Languages: Python · Java · JavaScript · TypeScript · PHP · HTML · CSS

Frontend: React.js · Tailwind CSS · Vite

Backend & Data: Node.js · Express.js · REST APIs · Socket.IO · MongoDB

Security: JWT · Refresh-token Rotation · RBAC

AI & Prompt Engineering: Gemini API · Prompt Engineering · Multimodal AI

AI Dev Tools: Cursor · Claude Code · Codex

IDEs & Tools: VS Code · Visual Studio · Android Studio · NetBeans · Git · GitHub · Postman

Strengths: Problem Solving · Critical Thinking · Presentation · Teamwork · Technical Leadership

KEY PROJECT

StudyNest — AI-Based Collaborative Study Platform

2025 – 2026

Senior Capstone · Full-Stack · React · Node.js · MongoDB · Socket.IO · Gemini API

[Live Demo](#) · [studynest.dev](#) · [Source](#) · github.com/rworldx/StudyNest-Source

End-to-end platform tackling student isolation in remote learning — built across 100+ REST endpoints, 100+ real-time socket events, and 20 data models, pairing AI-driven partner matching with a real-time collaborative workspace.

- Built an **AI-assisted partner-matching engine** that scores compatibility across subjects, study style, availability, and academic level — returning ranked matches **instantly**.
- Built a **real-time communication layer** (Socket.IO) powering live chat, voice/video study rooms with screen sharing, session scheduling, and **role-based controls** (host · co-host · participant · viewer).
- Built a **Google Gemini-powered AI study assistant** (text & voice) that analyses documents and images, answers study questions, and generates study plans and flashcards.
- Secured the backend with **JWT auth, refresh-token rotation, and role-based access control** — plus two-factor authentication and email verification.
- Shipped a responsive, **bilingual (EN/AR) PWA** — daily study tracking, streaks, dashboards, and five themes — with automated **Cloudinary** pipelines that cut media load time by **~35%**.
- Validated in a **44-student pilot**: 86% reported high satisfaction and 95% said the AI assistant improved how they study.

LEADERSHIP & ACTIVITIES

Webmaster — IEEE Student Branch

2025 – 2026

IEEE · Al Buraimi University College Chapter

- Recognised by the IT Department for contributions to the **official launch of the BUC IEEE Student Branch** (Feb 2026).
- Built and maintained the branch website and led digital presence, content strategy, and member communications.

Department Representative — Capstone Showcase

Apr 2026

IT Department · Al Buraimi University College

- Selected to deliver the IT Department's flagship capstone presentation (**in English**) before the Dean, Deputy Dean, faculty, and students — representing all five disciplines (Computer Science, Software Engineering, Information Systems, Cybersecurity, AI).

IT Club — Member

2022 – 2026

Al Buraimi University College

- Active member since the Foundation year; helped organise the club's flagship annual events, including the university's **Student Activities Week (Open Week)** — earning repeated recognition for sustained contribution.
- Manage the club's official social-media presence and event communications across activities.
- Member of the **Debate Club** (2022–2024), supporting the organisation of competitions.

HONOURS & ACHIEVEMENTS

London International Youth Science Forum (LIYSF) — National Finalist, Top 30

Jun 2026

Presented research project **StudyNest** at the national finals (Military Technological College, Muscat) — selected among the **top 30 of 738** STEM projects nationwide.

2nd Place — Promising Student Projects Camp

2025

SME Development Authority (Riyada) · Oman Promising Startups Programme

Pitched **EnerGrid**, a smart energy-monitoring concept that tracks real-time power consumption per device to cut waste and lower household bills — placing 2nd of 20+ teams and earning a cash prize and recognition from Riyadh's Chairperson.

Omantel × Hafeet Rail Hackathon

2024

Co-designed an **IoT smart waste-sorting bin** — near-infrared scanning to auto-sort recyclables, with NB-IoT fill-level reporting to the cloud over Omantel's network — prototyped in a 4-day team build.

Injaz Oman Entrepreneurship Programme

2023 – 2024

Reached the national pre-finals with student startup "Techno Water" (from hundreds of teams); exhibited at Al Arefan City, Muscat, before industry leaders and investors, and featured on Injaz Oman's official platform.

CERTIFICATIONS

IC3 Digital Literacy Certification — Global Standard 5 (GS5)

2023

Certiport

Internationally recognised certification covering computing fundamentals, key applications (Microsoft Word, Excel, PowerPoint), and online collaboration & safety.
